
Social Story

We are visiting Journeys gallery at the Autry Museum. When we see the different cases and the bison we know we are here!

The West is everything west of the Mississippi River.

One of the first things we will see is a large stagecoach. In this gallery, we will learn about people who lived and traveled to the West.

There is a bench we can sit on if we need to rest.

We have visited the Journeys Gallery! We can exit the gallery the same way we came in, or we can go through the other entrance to see the Communities Gallery.
